Fall changes

For the safety of our students and their families there will be some changes made to our classroom that you may notice when you return to school in September. We will be restricting our class size and we will only be accepting 10 full time students and 5 part time A.M. students and 5 part time P.M. students for a total of 15 students in the building at one time. As a result of us having to lesson our enrollment we will be adjusting our prices for tuition. We have always tried to make our tuition affordable and we will continue to do so. If at any point during the school year we can increase the number of students that we have, we will adjust tuition payments accordingly.

We will be limiting the amount of people that enter the building each day, so we will ask that when you drop your child off either in the morning or the afternoon you say goodbye at the door and allow your child to enter the building by themselves. Upon entering the building either Mrs. Amelio or Mrs. Welt will be taking each child's temperature. If a child has a fever of 100 degrees or over that child will not be able to remain at school that day. In addition to taking your child's temperature at school we are asking that you go to mylittleredschool.com daily and fill out our little red health online check in procedure.

There will be a limited amount, of children at each table and all tables will have plexiglass partitions so there will be little interaction between the children while they are either playing or doing academic work. All group activities such as circle time will be changed so that only half of the children will participate at one time, limiting the amount of children on the carpet and enabling us to keep the children six feet apart from each other. We are going to try and be outdoors as much as possible when the weather permits. This means that we may be conducting academic lessons outdoors as well. We will no longer be heating up students, lunches in our microwave. We would like to minimize our contact with the students as much as possible so we will ask that you provide your child with either a cold lunch or a thermos for anything that you would like to remain warm.

Mrs. Welt and Mrs. Amelio will be wearing face masks at both drop off and pick up. Once all the children are in the building, they will only wear masks if they need to be in close contact with the children. For example, if a child has a bathroom accident and needs help changing.

In addition to our daily cleaning routine we will also be disinfecting toys after each child plays with them. At the end of each day when all the children have gone home, we will also be sanitizing the building using a fogger machine that Mrs. Amelio has purchased. If you have any questions about any of our new safety policies, please feel free to contact Mrs. Amelio.

Thank you for your cooperation,

Little Red Staff

Attention Parents: Drop off-Pick up procedure

As a way of eliminating a large group of people gathering outside the front door during drop off and pick up times, we would like all adults to remain in their vehicles when arriving at the school. We ask that all cars enter the circle with the first car pulling all the way to the end and all other cars pulling in behind as close as possible. When it is time for the children to either enter or leave the building, we will ring the school bell. The first person in the circle may then exit their vehicle and come up to the front door to drop off or pick up their child. All adults should be wearing masks when they come up to the front door and all children should be wearing masks when either entering or exiting the building. Once that person is on their way back to their vehicle the next person may then exit their vehicle and so on until all children have been dropped off or picked up. Once you have dropped off or picked up your child please make your way back to your vehicle in a timely manner so there is no hold up in the line. We understand that this process may take a while but please understand that it is for the safety of our students and their families. This policy will be part of a learning experience for all of us in what is the best way to ensure that our students are dropped off and picked up safely. If after school starts, we feel that this is not the most effective method we will consider others and this procedure may change.

Thank you for your cooperation,
