Attention Parents: Drop off-Pick up procedure

As a way of eliminating a large group of people gathering outside the front door during drop off and pick up times, we would like all adults to remain in their vehicles when arriving at the school. We ask that all cars enter the circle with the first car pulling all the way to the end and all other cars pulling in behind as close as possible. When it is time for the children to either enter or leave the building, we will ring the school bell. The first person in the circle may then exit their vehicle and come up to the front door to drop off or pick up their child. All adults should be wearing masks when they come up to the front door and all children should be wearing masks when either entering or exiting the building. Once that person is on their way back to their vehicle the next person may then exit their vehicle and so on until all children have been dropped off or picked up. Once you have dropped off or picked up your child please make your way back to your vehicle in a timely manner so there is no hold up in the line. We understand that this process may take a while but please understand that it is for the safety of our students and their families. This policy will be part of a learning experience for all of us in what is the best way to ensure that our students are dropped off and picked up safely. If after school starts, we feel that this is not the most effective method we will consider others and this procedure may change.

Thank you for your cooperation,

Little Red Staff
